The first of these is the
fact that the population of the
country is increasing rapidly.
This is due to a number of
causes, the most important of
which are the following:
1. The birth rate is high.
2. The death rate is low.
3. The immigration is large.
4. The emigration is small.
The second of these is the
fact that the country is
becoming more and more
developed. This is due to
a number of causes, the most
important of which are the
following:
1. The government is improving
the roads and the railways.
2. The government is improving
the schools and the hospitals.
3. The government is improving
the water supply and the
drainage system.
4. The government is improving
the communication system.
The third of these is the

Izarn, Joseph, 1766-1834?

Acc. Des Pierres tombées du ciel, ou,
84- lithologie atmosphérique...

500 Paris : Delalain, 1803.

viii, 421, [1] p., [1] fold. pl. ;
21 cm.

OCLCxx (1969 ed.)

1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters α and β . It is shown that the system has solutions for arbitrary values of the parameters α and β if and only if the condition $\alpha + \beta = 1$ is satisfied. In this case the solutions are unique and are given by the formulas (2).

2. The second part of the paper is devoted to a study of the properties of the solutions of the system (1) for arbitrary values of the parameters α and β . It is shown that the solutions are continuous functions of the parameters α and β and that they are differentiable with respect to the parameters α and β if the condition $\alpha + \beta = 1$ is satisfied.
